CENTER OF EXCELLENCE "ARTIFICIAL INTELLIGENCE"

RESEARCH ACTIVITIES & EVENT IGDTUW-DELHI

INDIRA GANDHI DELHI TECHNICAL UNIVERSITY FOR WOMEN

(Established by Govt. of Delhi vide Act 09 of 2012)

MOTTO: EDUCATION - ENLIGHTENMENT - EMPOWERMENT

COE-AI VISION

To Disseminate high quality Research and take eGovernance to the next level, by making use of Al Technologies like Computer vision, Natural Language processing and Conversational Al like chatbots and voicebots, facilitating convenience and ease of use of facilities by Citizens and empowering Government to understand citizens' requirements by harnessing their feedback in social media and other forms of unstructured data like images, videos and documents.

Technical Tracks

- 1. Trends and Applications in Speech Processing
- 2. NLP and its applications
- 3. Applications of Machine Learning and Deep Learning in Healthcare
- 4. Recent Trends in Machine Learning and Deep Learning
- 5. Analysis using Hybrid Technologies with Artificial Intelligence
- 6. Image Analysis using Machine Learning and Deep Learning
- 7. Recent advancements using Hybrid Technology

Indira Gandhi Delhi Technical University for Women organized the third season of the International Conference on Artificial intelligence and Speech Technology (AIST-2021). The event was held on 12th and13th November 2021 which witnessed a great success, guided by many eminent guests and speakers from international levels such as Germany, France, Netherlands, etc. More than 183 papers were received in the AIST 2021 Conference and total of 55 papers were selected, presented in the Conference by the Springer CCIS Edition. There were Seven technical tracks in which the selected papers were presented in their respective tracks. Each track had eight to nine papers being presented by the authors.

Indira Gandhi Delhi Technical University for Women (IGDTL/W) has been upgraded from Indira Gandhi Institute of Technology in May 2013 vide Delhi State Legislature Act 9, 2012, as a non-affillating teaching and research University at Dethi to facilitate and romote studies research, technology, innovation, incubation and extension work in emerging areas of professional education among women, with focus on engineering, technology, applied sciences, management and its afficial areas with the objective to achieve excellence in these and related fields. The objective of the University is to foster industry relevant research and innovations and empower the women of our country through value based higher education making them psychologists self-religing responsible citizen of the country with concern for environment and society

About Department of CSE.

The Computer Science and Engineering Department is the most versatile department of college and gaters to the needs of other departments as well. The department aims at developing the fundamental conceptual knowledge along with the total personality, which helps computer engineers to face the challenges of rapidly changing software

industry. Numerous professional activities are conducted to improve interaction between students, faculty, other academic institutions and industries. The Denurtment offers B Tech. M. Loch (AD) and Ph D Courses

Objective and Scope

This Esculty Development Programme (FDP) is devoted to addressing the need to enhance the knowledge about the latest technologies pertaining to Machine Learning (ML) and Deep Learning (DL) that are estably considered as the subsets of Artificial Intelligence (Al). Deep learning is a subset of machine learning that has networks capable of learning unsupervised/supervised from data that is unatructured or unlabeled. It imitates the workings of the human brain in processing data and creating patterns for use in decision making. The objective of this FDP is to introduce the participants to the world of Machine Learning and Deep Learning and give on insight on how and where it can be used.

- . The obsertion of the EDM is to remedien fundamentals Machine Learning and Deep
- . This ETIP will be a very useful elations for Faculty and researchers to update their
- . This FDP also focuses on exploring various research opportunities and challenges in the field of Machine Learning and Deep Learning. Topics to be suvered
- Introduction to Machine Learning and Deep Learning
- Supervised Machine Learning Applications
- . Un-Supervised Machine Learning
