3rd Summer Workshop on "Secure Web-based Application Development"

ACM Student Chapter @ IGDTUW, technical society of Department of Information Technology organized 3rd Summer Workshop on "Secure Web-based Application Development" from 19th June, 2013 to 31st July, 2013. Workshop received an overwhelming response with more than 80 students from B.Tech.(IT/CSE) and M.C.A. programmes of the University participated voluntarily. Topics covered in the Workshop were HTML, CSS, JavaScript, PHP, JSP, mySQL, XSS, SQL injection and other web security issues. Students worked in groups to develop projects on themes of providing web-based solutions for ACM Student Chapter, Administration & Management of Academics and Societal issues. Feedback received from students was quite encouraging.
