

Report: OPTICA STUDENTS CHAPTER IGDTUW **3D CAD TOURNAMENT**

Date: 01/11/2023

Venue: IGDTUW

Introduction:

The Optica Students Chapter IGDTUW organized a successful CAD Tournament aimed at promoting learning and skill enhancement within the field. The event comprised three rounds designed to test the participants' knowledge, speed, and accuracy in Computer-Aided Design (CAD). The tournament was conducted seamlessly with the aid of Unstop App for registrations and logistical organization.

Brief of the Session:

1. Registration and Quiz Round:

The tournament commenced with an online registration process through the Unstop App. Initially, there were 38 enthusiastic participants who registered for the event. Among them, 24 individuals attempted the quiz round on the Unstop platform, showcasing their proficiency and qualifying for the subsequent round.

2. Online Elimination Round:

The second round, held offline, faced limitations for out-of-Delhi registrants due to logistical constraints. Out of the initial 24 qualifiers, 11 participants were eligible for further rounds, and 6 participants actively engaged in the final round. The tournament progression included 6 participants in Round 1, 4 participants in Round 2, and finally, 3 participants in the ultimate Round 3.

3. Final Round and Winner:

The concluding stage of the tournament witnessed intense competition among the top 3 participants, culminating in Alisha Dhingia, a dedicated 2nd-year DMAM student, securing the prestigious title of tournament winner, showcasing remarkable skills and expertise in CAD.

Participation and Recognition:

Certificates:

All 38 individuals who registered for the tournament received participation certificates, acknowledging their support and enthusiasm.

Appreciation for Qualifiers: Among the 11 participants who qualified for successive rounds, commendation and appreciation were extended for their exceptional performance and dedication.

Winner and Runner-up: Special recognition was awarded to **the winner, Alisha Dhingia**, and the runner-up, highlighting their outstanding achievements in the tournament. Only three individuals received this distinguished acknowledgment.

Overall Impact:

The CAD Tournament conducted by the Optica Students Chapter IGDTUW left a profound impact on both participants and the academic community. It provided a platform for students to exhibit their CAD expertise, fostering healthy competition and camaraderie among peers. The tournament not only evaluated technical skills but also promoted networking and collaboration among participants.

Furthermore, the event emphasized the practical application of theoretical knowledge, highlighting the significance of technology in education. Its success inspired participants to further develop their CAD skills and actively engage in future academic initiatives.

The Optica Students Chapter extends sincere gratitude to all participants, sponsors, and contributors who contributed to making this event a resounding success. The CAD Tournament's impact extends beyond the competition, contributing to the continual growth and development of students within the CAD domain.

Some glimpses of the Event
