**One Day International Workshop on Emerging Research Trends in Natural Language and  
Speech Processing on 11th January, 2019.**

The One Day International Workshop on Emerging Research Trends in Natural Language and Speech Processing brought together researchers, academics, and industry professionals from around the world to discuss the latest advancements and research trends in the field of natural language processing (NLP) and speech processing. The workshop aimed to foster knowledge exchange, collaboration, and innovation in these rapidly evolving domains.

The workshop saw active participation from researchers, scholars, and professionals specializing in natural language processing, speech recognition, computational linguistics, machine learning, and related fields. A total of 74 participants graced the event.

The One Day International Workshop on Emerging Research Trends in Natural Language and Speech Processing proved to be a resounding success in achieving its objectives. The event facilitated the exchange of knowledge, fostered collaboration, and inspired participants to continue pushing the boundaries of NLP and speech processing research.
